Dear Mrs. Karet-Coxen.

It is our distinct pleasure to extend our support to the Nginn Karet Foundation for Cambodia's Dance Troupe (NKFC) for their forthcoming U.S. tour.

Conservatoire NKFC Preah Ream Buppha Devi was created in a remote village of Banteay Srei District, Siem Reap, Cambodia in 2007. We are very proud that today their artistic activities are not only contributing to the preservation and promotion of Cambodian dance and music in Cambodia, but also abroad.

As the performance tour will be visiting many Khmer-American communities in the United States, it is expected the event will be a special opportunity for the young performers to connect those communities to the culture of their motherland, as well as to present Khmer classical dance and traditional music to an American audience.

We wish the performance tour the best of success.
